

# **Caledonian Military Cables**

# MIL-W-81044/7

### **Applications**

MIL-W-81044 wire may be used for airframe, avionics, military vehicle, shipboard, missile and other electronic applications, Additionally, the dual layer, lightweight, high temperature wire offers outstanding performance that makes it suitable for many functions where high density cabling and harnessing are required, these wires have excellent resistance to cut-through, abrasion, cold flow, shrink back, notch propagation and common chemicals.

#### **Construction Details**

The jacket is XL-PVDF

#### Construction

Conductor: Silver plated high strength Copper

Insulation: Irradiation cross-linked extruded Polyalkene insulation

jacket: Extruded XL Polyvinylidene Fluoride (XL-PVDF)

Insulating Material Thickness: 34 mil (0.9 mm) to 39 mil (1.0mm)

#### **Characteristics**

Temperature Rating: 150°C

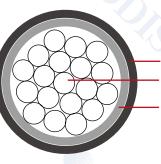

Voltage Rating: 600 volts

MIL-W-81044/7

SAE AS81044

10 basic colors

## **Dimensions and Weight**

-XL-PVDF -Silver plated high strength Copper -Irradiation cross-linked extruded Polyalkene
